

When it Comes to Transfer and Infeed Systems With No-Wear Parts, No One Does it Better Than Kraken Automation.

Increase Productivity and Cut Your Maintenance Costs Today!

KRAKEN Conversion Kit

Servo-Paddle Transfer and Infeed System (No Mechanical Wear Parts, Electronics, Variable to High Speed, No Maintenance)

Servo Paddle System

Minimal Components

- No Mechanical Spare Parts
- Maintenance Free
- Electronics Based
- Industry Robust
- Variable Speeds to 100 Bags Per Minute Approx.
- Precision High-Speed Product Placement
- Servo-Paddle Feed Device for Millisecond Product Transfer
- Ease of Integration Using Same Frame Structure
- Plug-and Play, Minimal Engineering Involvement
- Highest Dependability and Reliability
- Most up-to-date and Innovative Technology
- Cost Effective with Best Price/Performance Ratio

Don't be fooled by other offers to upgrade to more "robust parts that are less prone to wear" It's still going to wear and you will be flipping the price tag for every service and parts call. Isn't it time to break that costly cycle?

Your KRAKEN Solution:

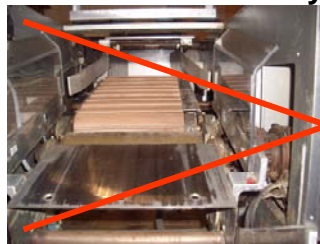

We invite you today to order your KRAKEN Servo-Paddle Transfer Conversion Kit, SGRK-100 that will convert your present Slide Gate system to a Kraken Servo Paddle System. You will see the immediate benefits in your bottom line through increased productivity and zero maintenance...all at a fraction of our competitors' parts upgrade package.

Limited Time Offer!!!

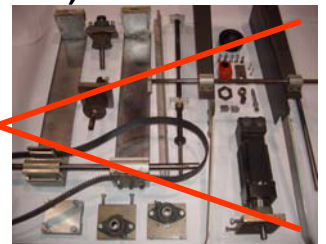

Still not convinced?! Act Today and Get a Free Tool-Less Adjustable Change Kit, (TACK-100) (\$2,000.00 Value Offering)

Competitor Slide Gate System

Slide Gate Transfer Bearing System (Multi-Wear Parts, High- Mechanical System, Slow, High Cost, Maintenance Ridden for Life of System)

Slide Gate System

Parts Intense System

Costly Maintenance Ridden System
 Multiple Wear Parts like Rods, Bearings, Linear Rails
 Clutches, Brakes etc.
 Slide Gate Transfer System
 Operating Speeds of Up to 70 Bags Per Minute Approx.

Response

Contact us today and let us show you first-hand. It will be your best investment and decision to achieve production efficiency and cut your maintenance costs.

Yes I am interested in speaking to a Kraken representative about the Kraken SGRK-100 Servo-Paddle Conversion Kit.
